ABC Seamless Helps Minnesota Family, National Spotlight

Fargo, ND, December 1, 2008 – ABC Seamless will show the nation its heart on ABC's *Extreme Makeover: Home Edition* airing December 7th, 2008. ABC Seamless of Albert Lea supplied seamless steel siding, soffit and fascia and volunteered around the clock Friday through Sunday morning to fulfill the dream of Albert Lea, Minnesota's DeVries family.

Hanna DeVries, 12, described her old house as "coming apart at the seams." Upon entering the old house, there was an immediate smell of mildew. Leaky ceilings, rotting wood siding, and missing tiles are conditions that Hanna and her 2 siblings are happy to be rid of. Hanna's father, Dirk, had lost his arm years earlier in a farming accident and his wife, Susan, is recovering from a heart condition.

The DeVries family need not worry about the seams in their home showing ever again. The *Extreme Makeover: Home Edition* team, led by Larson Contracting, demolished the old home in Albert Lea, MN and called on ABC Seamless to protect the DeVries' new home with its 'Cinnamon' colored seamless steel siding and complimenting soffit and fascia. This siding never needs painting and withstands the damaging effects of wind, hail, and the sun. "They did a wonderful job on it and I love that color," exclaims Tonya Turvold, a family friend, on her weblog.

Volunteers from Home Solutions Midwest [ABC Seamless of Albert Lea] clocked in at 10pm on Friday night and worked around the clock until 1am on Sunday morning. There were hundreds of other people running around, all doing their part. The project was completed more than 10 hours ahead of schedule, a feat that was quite an accomplishment for the entire team.

The "DeVries Family" episode of *Extreme Makeover: Home Edition* will air on Sunday, December 7th. Check your local listing for exact times.
